Is the site currently vacant?
<ul><li>✓ Yes</li><li>○ No</li></ul>
If Yes, please describe the last use of the site
Public house and associated car park
When did this use end (if known)?
15/09/2022
Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.
Land which is known to be contaminated
○ Yes ⊙ No
Land where contamination is suspected for all or part of the site
<ul><li>○ Yes</li><li>⊙ No</li></ul>
A proposed use that would be particularly vulnerable to the presence of contamination
○ Yes ⊙ No
Materials
Does the proposed development require any materials to be used externally?
○ No

Yes, please state references for the plans, drawings and/or design and access statement  Topographical measured survey drawings, plans and elevations (SEP) for public house and car park.  Location plan outlined in red scale 1 : 1250  Existing site plan showing trees to be removed and hedges cut back + relocation of electricity pylon. Pedestrian and Vehicle Access, Roads and Rights of Way	Proposed ground & first floor plans with outline elevations.
Pedestrian and Vehicle Access, Roads and Rights of Way	
	Pedestrian and Vehicle Access, Roads and Rights of Way
	s a new or altered vehicular access proposed to or from the public highway?
	② Yes ○ No

Is a new or altered pedestrian access proposed to or from the public highway?
<ul><li>✓ Yes</li><li>○ No</li></ul>
Are there any new public roads to be provided within the site?
<ul><li>○ Yes</li><li>② No</li></ul>
Are there any new public rights of way to be provided within or adjacent to the site?  Or Yes
⊙ No
Do the proposals require any diversions/extinguishments and/or creation of rights of way?
<ul><li>○ Yes</li><li>⊙ No</li></ul>
If you answered Yes to any of the above questions, please show details on your plans/drawings and state their reference numbers
Please see proposed site plan
Vehicle Parking
Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?
<ul><li>✓ Yes</li><li>○ No</li></ul>
Please provide information on the existing and proposed number of on-site parking spaces
Vehicle Type: Cars
Existing number of spaces: 23
Total proposed (including spaces retained):
Difference in spaces:
-14
Trees and Hedges
Are there trees or hedges on the proposed development site?
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?
<ul><li>✓ Yes</li><li>○ No</li></ul>
If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk
Is the site within an area at risk of flooding? (Check the location on the Government's Flood map for planning. You should also refer to national standing advice and your local planning authority requirements for information as necessary.)
<ul><li>○ Yes</li><li>⊙ No</li></ul>
Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?
<ul><li>○ Yes</li><li>⊙ No</li></ul>
Will the proposal increase the flood risk elsewhere?
○ Yes ⊙ No
How will surface water be disposed of?
☐ Sustainable drainage system
Existing water course
Soakaway
✓ Main sewer
☐ Pond/lake
Biodiversity and Geological Conservation
Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on
land adjacent to or near the application site?
land adjacent to or near the application site?  To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

Biodiversity net gain
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in <a href="Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)">amended</a> )) would apply?  O Yes  No
Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u> : "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.
If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).
You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons
Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one
Reason biodiversity net gain does not apply:  Development of a biodiversity gain site
Please justify the reason why biodiversity net gain does not apply:  BNG report instructed and awaited
Note: Please read the help text for further information why developments may be exempt or not in scope.
Foul Sewage
Please state how foul sewage is to be disposed of:
✓ Mains sewer  ☐ Septic tank ☐ Package treatment plant ☐ Cess pit ☐ Other ☐ Unknown
Are you proposing to connect to the existing drainage system?
⊙ Yes
○ No ○ Unknown
If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references
See existing and proposed Site Plan

Waste Storage and Collection
Do the plans incorporate areas to store and aid the collection of waste?
<ul><li>⊘ Yes</li><li>○ No</li></ul>
If Yes, please provide details:
See Proposed Site Plan
Have arrangements been made for the separate storage and collection of recyclable waste?
<ul><li>✓ Yes</li><li>○ No</li></ul>
If Yes, please provide details:
See Proposed Site Plan
Trade Effluent
Does the proposal involve the need to dispose of trade effluents or trade waste?
○ Yes ② No
Residential/Dwelling Units
Residential/Dwelling Units  Does your proposal include the gain, loss or change of use of residential units?
Does your proposal include the gain, loss or change of use of residential units?  ② Yes
Does your proposal include the gain, loss or change of use of residential units?   Yes  No
Does your proposal include the gain, loss or change of use of residential units?  Yes  No  Please note: This question is based on the current housing categories and types specified by government.  If your application was started before 23 May 2020, the categories and types shown in this question will now have changed. We recommend that

Details of the pre-application advice received

Subject to acceptable detail and design, the principle of residential development in this location is considered to be acceptable given the residential nature of the surrounding area and the land allocation.

Significant efforts have been made, working with the Conservation officer, to revise the layout/proposed footprints of the new dwellings, which is much appreciated. It is considered we have reached an acceptable point of compromise. The possibility of adding small projecting elements to the proposed linear buildings should be done with caution as the linear form of the buildings reflect the adjacent farm buildings and any potential additions have not been reviewed by the Conservation Officer.

It is not considered that this proposal would be exempt from providing BNG.

Given the Beehive has been disused for a period of time, it would be necessary for a bat survey/roost assessment to be undertaken, prior to any demolition, and this would need to be provided prior to the determination of the planning application.

The current use of a public house means that a change to residential would be an increase in the sensitivity to land contamination, and would therefore warrant an assessment. In this case it is recommended that a preliminary risk assessment should be prepared to support any future planning application. A preliminary risk assessment should present the findings of a desk study and site review, including a conceptual site model, and make recommendations for further work, if necessary.

As you have stated, the adjacent site did not have to provide a Noise Risk Assessment, I'm happy for you to push back on this, but would suggest a section is included in the Design and Access Statement that sets out your position.

The application site is located within the Middle Zone and is considered to be either level 1 or 2 sensitivity. It is there for anticipated that the HSE will not object to the principle of the proposed development.

The revised design that proposes single accesses for the new dwellings instead of a shared access is welcomed. I have asked the Highways Officer to advise on the sight line requirements and he has provided the following clarification:

As far as I understand it, Halebank Road is a 30mph. We would wish the applicant to carry out some independent speed surveys on the road. On a standard 30mph road where speed limits are within a 10% margin of the limit of the road we would require sightlines of 43m (1m out from the nearside kerb) in each direction from a point 2.6m back from the back of carriageway.

Cars should exit the site in a forward gear but it is unlikely that this will be conditioned. The proposed vehicle access for the Beehive is acceptable as there is evidence that this has historically been used as a vehicle access. The pavement widths should be 2m, the existing width of the pavement is not known.

The application site is located within Flood Zone 1 and so has a low probability of flooding from rivers and the sea.

### **Authority Employee/Member**

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any	or the	above	statements	apply?

# **Ownership Certificates and Agricultural Land Declaration**

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

Yes

○ No

⊗ No
Certificate Of Ownership - Certificate A
I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**
* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.
** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.
NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
